UNIV 1820.007 and 015 - LSAMP

Instructor: Michael Petro

Tuesdays 3:30PM—4:20PM (PS #8446) OR
Thursdays 11:00AM—11:50AM (PS #9739)

Open to Freshmen and Sophomores in the LSAMP Program ONLY

This course will cover three areas as they pertain to students pursuing undergraduate degrees in STEM fields: (1) Best practice strategies for academic success, (2) Finding research and internship experiences for undergraduate enrichment, and (3) Leadership and professional development in the STEM fields available to UConn students.

Students will gain
1) Skills needed to compete in the STEM fields
2) Leadership and professional development
3) Resources for increased academic success
